Presentation

My research interests are mainly centered between symbolic dynamics, ergodic theory, and topological dynamical systems, with a focus on minimal Cantor systems. My main results involves the understanding of multidimensional substitutive subshifts, where one of the most important result is the proof of the decidability of the isomorphism problem between them. My current projects aim to extend the S -adic formalism to general countable groups, with the long-term goal of contributing to the classification of minimal Cantor systems and their applications across dynamical and operator-theoretic contexts.

I have extensive experience in teaching, working as a teaching assistant for more than twenty courses (both undergraduate and graduate levels) in Chile and Belgium. I consider teaching an important feature of my academic vocation. I emphasize clarity, structure, and conceptual understanding, and I strive to create inclusive, interactive classrooms where students learn to think both rigorously and creatively. More recently, as a lecturer, I have been actively involved in all aspects of course instruction, including preparing and grading assessments, both independently and in collaboration with fellow instructors.

As a chilean researcher, I am deeply committed to promoting equity, diversity, and inclusion in mathematics. My goal is to contribute to an institution that values excellence, openness, and interdisciplinarity, advancing both research and education in mathematics.

Education

13/09/2022 **Ph.D in Mathematics**, *Université de Picardie Jules Verne*, France.

Thesis advisor: Samuel Petite.

Thesis title: Sur l'étude des homomorphismes entre $\mathbb{Z}^d$ -systèmes dynamiques topologiques.

Funding: Centre National de la Recherche Scientifique (CNRS).

21/05/2019 **Master 2 in Fundamental Mathematics**, *Sorbonne Université*, France.

Thesis advisor: Carlos Matheus.

Thesis title: Anosov mapping class actions on the $SU(2)$ -representation variety of a punctured torus.

Funding: Fondation Sciences Mathématiques de Paris (FSMP).

17/04/2018 **Master of Science in Engineering (Mention in Applied Mathematics)**, *Universidad de Chile*, Chile.

Thesis advisor: Alejandro Maass and Sebastián Donoso.

Thesis title: Cubos dinámicos direccionales para $\mathbb{Z}^d$ -sistemas minimales.

Funding: Center for Mathematical Modeling (CMM).

17/04/2018 **Professional Title in Mathematical Engineering (Double degree)**, *Universidad de Chile*, Chile.

22/01/2016 **Bachelor of Engineering Science in Mathematics**, *Universidad de Chile*, Chile.

Professional Experience

01/04/2025 - **Postdoc researcher**, *Center for Mathematical Modeling, Universidad de Chile*, Chile.

Present Supervisor: Sebastián Donoso.

Funding: Fondecyt Postdoc Project 3250155.

14/10/2024 - **Postdoc researcher**, *Center for Mathematical Modeling, Universidad de Chile*, Chile.

31/03/2025 Supervisor: Sebastián Donoso.

Funding: ANID Basal FB210005.

01/11/2022 - **Postdoc researcher**, *Department of Mathematics, Université de Liège*, Belgium.

11/10/2024 Supervisor: Julien Leroy.

Funding: Subside Fédéral à la Recherche - IPD-STEMA 2022.

05/03/2018 - **Research Assistant**, *Universidad de Chile*, Chile.

24/08/2018 Supervisor: Sebastián Donoso.

Funding: Fondecyt Project 11160061.

11/07/2016 - **Professional Internship**, *Universidad de O'Higgins*, Chile.

19/08/2016 Supervisor: Felipe Alvarez.

Description: Design of final projects for students of the course IN1000 Precalculus.

04/01/2016 - **Research Assistant/Professional Internship**, *Center for Mathematical Modeling*, Chile.

29/01/2016 Supervisor: Hector Ramirez.

Description: Conduct studies on observability applied to biofuels.

Funding: Basal project PFB-03 (Conicyt).

05/01/2015 - **Research Assistant/Professional Internship**, *Centre for Advanced Research in Education*

30/01/2015 (*CIAE*) *Universidad de Chile*, Chile.

Supervisor: Pablo Dartnell and David Gómez.

Description: Design and execution of an experiment on mathematical cognition.

Funding: Fondef Project D11I1009.

Teaching Experience

Link to a detailed description of my teaching experiences: <https://christophercabezas.github.io/teaching/>

05/01/2026 - **Lecturer**, *Summer School for High-School students*, *Universidad de Chile*, Santiago, Chile.

23/01/2026 ○ Precalculus.

10/03/2025 - **Lecturer**, *Department of Mathematics*, *Universidad de Chile*, Santiago, Chile.

31/07/2026 ○ Introduction to Algebra.

○ Introduction to Symbolic Dynamics.

○ Multivariable Calculus.

14/09/2023 - **Teaching Assistant**, *Department of Mathematics*, *Université de Liège*, Liège, Belgium.

28/06/2024 ○ General Topology.

○ Combinatorics on Words.

Total exercise sessions: 40 hours.

10/03/2014 - **Teaching Assistant**, *Departament of Mathematical Engineering*, Universidad de Chile,
24/08/2018 Santiago, Chile.

- Introduction to Dynamical Systems and Ergodic Theory.
- Convex Analysis and Duality.
- Functional Analysis.
- Measure Theory.
- General Topology.
- Topics in Convex Analysis.
- Multivariable Calculus.
- Linear Algebra.

Total exercise sessions: 280 hours.

05/03/2018 - **Teaching tutor in Taller Los Dos Relojos**, *Universidad de Chile*, Chile.

24/08/2018 Description: As a tutor, I provided academic support to students in mathematics courses of the first two years of the Engineering and Science Program, helping them to understand theoretical concepts, to develop problem-solving strategies, and strengthen their logical and analytical reasoning.

05/03/2018 - **Teaching Assistant**, *Engineering School*, Universidad de O'Higgins, Rancagua, Chile.

- 21/07/2018
- Multivariable Calculus.
 - Introduction to Discrete Mathematics.

Total exercise sessions: 60 hours.

04/08/2014 - **Teaching Assistant**, *Departament of Computer Science*, Universidad de Chile, Santiago,
12/12/2014 Chile.

- Discrete Mathematics for Computer Science.

Total exercise sessions: 20 hours.

List of Publications

1. C. Cabezas, and J. Leroy. Decidability of the isomorphism problem between multidimensional constant-shape substitutive subshifts. *Ergodic Theory Dynam. Systems*, 45(7):2054-2094, 2025.
2. C. Cabezas, and S. Petite. Large normalizers of $\mathbb{Z}^d$ -odometers systems and realization on substitutive subshifts. *Discrete Contin. Dyn. Syst.*, 44(12):3848-3877, 2024.
3. C. Cabezas. Homomorphisms between multidimensional constant-shape substitutions. *Groups Geom. Dyn.*, 17(4):1259-1323, 2023.
4. C. Cabezas, S. Donoso, and A. Maass. Directional dynamical cubes for minimal $\mathbb{Z}^d$ -systems. *Ergodic Theory Dynam. Systems*, 40(12):3257-3295, 2020.

In preparation

1. N. Bitar, C. Cabezas, and P. Guillon. Substitutions and Hierarchical Structures in Groups.
2. C. Cabezas, J. Leroy. Multidimensional automatic sequences.
3. C. Cabezas, S. Donoso, M. Sablik. Symbolic dynamics with open actions.

Presentations

Talks in Conferences

- 15/12/2025 Dynamics in Patagonia: Celebrating AAlejandro Maass'60th Birthday, Puerto Natales, Chile. **Invited speaker.**
- 12/12/2024 Dyadisc 7: Brazilian-chilean and french interplay for symbolic dynamics. An attempt at a low-carbon intercontinental conference, Valparaiso, Chile. **Invited speaker.**
- 04/06/2024 Numeration 2024, Utrecht University, Utrecht, Holland.
- 16/05/2024 Dynamics on zero-dimensional spaces: new connections, Lorentz Center, Leiden, Holland. **Invited speaker.**
- 02/04/2024 Multidimensional symbolic dynamics and lattice models of quasicrystals, CIRM, Marseille, France.
- 12/02/2024 Discrete Mathematics & Computer Science: Groups, Dynamics, Complexity, Words. Week 3: "Complexity of Simple Dynamical Systems", CIRM, Marseille, France. **Invited speaker.**
- 06/02/2024 Discrete Mathematics & Computer Science: Groups, Dynamics, Complexity, Words. Week 2: "GAGTA, Geometric and Asymptotic Group Theory with Applications", CIRM, Marseille, France.
- 05/07/2023 Dyadisc 6: Dynamics on the Cantor set and applications, Université de Picardie Jules Verne, Amiens, France. **Invited speaker.**
- 18/06/2022 36th Summer Topology Conference. Tiling Spaces Section, University of Vienna, Vienna, Austria.
- 13/06/2022 Journées SDA2 2022: Systèmes Dynamiques, Automates and Algorithmes, Université de Liège, Liège, Belgium.
- 18/10/2021 Extended Symmetries in Symbolic Dynamics, Bielefeld University, Bielefeld, Germany. **Invited speaker.**
- 28/09/2021 Journées annuelles du GDR AMA, IGESA, Porquerolles, France.
- 13/01/2021 Invariants combinatoires et algébriques des décalages et des pavages, CIRM, Marseille, France. **Invited speaker.**
- 04/12/2020 Journées SDA2 2020, Organized by GREYC of Université de Caen Normandie, Caen, France, Online presentation.
- 05/12/2017 First Encounter of Graduate Students in Mathematics (PostMat 2017), Universidad de Chile, Santiago, Chile.

Talks in local seminars

- 10/02/2026 Séminaire de mathématiques discrètes de l'Université de Liège, Liège, Belgium.
- 03/02/2026 Séminaire SymPA, Université de Picardie Jules Verne, Amiens, France.
- 21/04/2025 SIPO Seminar, Center for Mathematical Modeling, Santiago, Chile.
- 28/10/2024 Dynamical Systems Seminar in Santiago, Pontificia Universidad Católica de Chile, Santiago, Chile.

- 01/10/2024 Séminaire SymPA, Université de Picardie Jules Verne, Amiens, France.
- 20/02/2024 One World Combinatorics on Words Seminar.
- 02/12/2022 Rencontre Pytheas Fogg: Décidabilité de l'apériodicité d'un pavage substitutif 2D, Université Aix-Marseille, Marseille, France.
- 02/12/2022 Rauzy Seminar, Université Aix-Marseille, Marseille, France.
- 23/05/2022 Dynamical Systems Seminar in Santiago, Universidad de Chile, Santiago, Chile.
- 21/09/2021 Séminaire de mathématiques discrètes de l'Université de Liège, Liège, Belgium.

Posters

- 14/08/2024 Algebra, Analysis, and Aperiodic Order, Bielefeld University, Bielefeld, Germany.
- 08/07/2021 Dyadisc 4: Dynamique et Analyse Discrète: problèmes ouverts en dynamique de faible complexité, Université de Picardie Jules Verne, Amiens, France.

Prizes and Awards

- 20/03/2025 **Qualification**, *Qualified for Maître de conférences in France for section 25 (Mathematics)*.
- 27/12/2024 **Postdoctoral Fellowship**, *Fondecyt Postdoc*, ANID, Santiago, Chile.
- 20/11/2023 **Postdoctoral Fellowship**, *CMM*, Universidad de Chile, Santiago, Chile.
- 05/05/2022 **Postdoctoral Fellowship**, *IPD-STEMA 2022*, Université de Liège, Liège, Belgium.
- 04/07/2022 - **Member of the ANR IZES Project**, *Coordinator: Fabien Durand*.
Present
- 15/01/2022 **Travel Grant**, (1000 €) *Project ECOS SUD (projet ACEDic C21E04)*.
- 20/02/2020 **Travel Grant**, (1950 €). *Project S2R Mobilité*, Université de Picardie Jules Verne, Amiens, France, Used in 2021 due to the pandemic.
- 28/06/2019 **PhD Fellowship**, *UMR7352-CHRCAL-001*, CNRS, Amiens, France.
- 12/03/2018 **Master Fellowship**, *PGSM program*, Fondation Sciences Mathématiques de Paris, Paris, France.
- 24/01/2017 **Master Fellowship**, *CMM Excellence Scholarship*, Universidad de Chile, Santiago, Chile.
- 25/11/2016 **Summer School Fellowship**, *Instituto Nacional de Matemática Pura e Aplicada (IMPA)*, Rio de Janeiro, Brazil.
- 16/12/2012 - **Distinction**, *Outstanding Student*, 2012, 2013, 2015, 2016, 2017.
27/03/2018
- 10/02/2012 **Undergraduate Fellowship**, *Beca Bicentenario*, Financed by the Ministry of Education, Chile.
- 21/11/2011 **Gold Medal**, *National Physics Olympiad*, Chile.
- 01/10/2011 **Honorable Mention**, *Iberoamerican Physics Olympiad*, Guayaquil, Ecuador.

Research Visits

15/02/2026 - Mathieu Sablik, Full Professor, Université Paul Sabatier, Toulouse, France.
19/02/2026

31/01/2026 - Samuel Petite and Fabien Durand, Full Professors, Université de Picardie Jules Verne, Amiens,
05/03/2026 France.

23/09/2024 - Samuel Petite and Fabien Durand, Full Professors, Université de Picardie Jules Verne, Amiens,
03/12/2024 France.

28/11/2022 - Pierre Guillon, Chargé de recherche. Université Aix-Marseille, Marseille, France.
02/12/2023

28/02/2022 - Sebastián Donoso, Assistant Professor, Universidad de Chile, Santiago, Chile.
27/05/2022

18/10/2021 - Michael Baake, Full Professor, Bielefeld University, Bielefeld, Germany.
22/10/2021

20/09/2021 - Julien Leroy, Assistant Professor, Université de Liège, Liège, Belgium.
23/09/2021

Organization and Evaluation in Scientific Aspects

15/02/2023 - **Organizer of the Discrete Mathematics Seminar**, *Université de Liège*, Liège, Belgium.
20/06/2024

03/03/2023 - **Reviewer board**, *Conference: WORDS 2023*.
27/03/2023

18/12/2019 - **External Peer Review: Internal Research Projects**, *Universidad Autónoma de Chile*,
05/01/2020 Santiago, Chile.

Attended scientific venues

Conference: Thematic Month Discrete Mathematics & Computer Science: Groups, Dynamics, Complexity, Words; 29 January – 1st March, 2024, CIRM, Marseille, France.

Conference: Numeration 2023, 22 - 25 May 2023, Liège, Belgium.

Conference: Journées SDA2 2023, 29 - 31 March 2023, Toulouse, France.

Conference: Dyadisc 5: S-adicity, 15 - 17 July 2022, Amiens, France.

Conference: Winter School: Billiards, 17 - 21 January 2022, Autrans, France.

Conference: Journées SDA2 2021, 28 - 29 November 2021, Caen, France.

Conference: École d'été finistérienne en systèmes dynamiques, 21 - 25 June 2021, Brest, France.

Workshop: Expanding Dynamics-Creative Online Ventures in Dynamics (I-XIII), 08/05/2020 - 14/06/2021, Online workshops.

Workshop: Workshop in Dynamical Systems and Applications, 4 - 6 December 2019, Concepción, Chile.

Conference: Measurable, Borel, and Topological Dynamics, 7 - 11 October 2019, Marseille, France.

Conference: Dyadisc 3: Decidability and dynamical systems, 3 - 5 July 2019, Amiens, France.

Workshop: LXIII Colloquium: Celebrating Rafael Labarca's 60th Birthday, 25 - 29 September 2017, Santiago, Chile.

Workshop: Suma 2016, Organized by SOMACHI and UMA, 14 - 17 December 2016, Valparaíso, Chile.

Conference: School of Information and Randomness 2016, 5 - 9 December 2016, Santiago, Chile.

Institutional responsibilities

09/03/2016 - Design of the lecture notes for the course MA3801 General Topology with Professor Aris
19/08/2016 Daniilidis.

09/03/2015 - Member of the Student Council of Mathematical Engineering (CEIMAT).
18/12/2015
